

THE C.P.R. ENTRANCE GRADES ARE ABSURD

This is the Opinion of Commissioner Bouillon—Instead of Passing Through West End of City on Level Railway, Line Should be Depressed 11 Feet on Jasper.

If the ideas of Commissioner Bouillon prevail the entire question of the line of the Canadian Pacific railway from the north end of the high level bridge to Jasper avenue will be reopened. The trouble that the utility commissioner finds is with the grade and the effect that they will have on the street crossings at Jasper, Victoria, McKay and Havelock, between Ninth and Eleventh streets.

"The present entrance if it is allowed to stand, would be a monumental blunder for the city," he stated to the Bulletin this morning.

At the present time the C. P. R. entrance will strike Jasper avenue at the present grade line. The commissioner's idea is to depress the line of the railway about 12 feet.

Under present conditions the grade is a very poor condition, the grade

of the railway on Jasper would be about 8 per cent. on the east side, which would be an entirely ridiculous one from the standpoint of vehicular traffic. At McKay and Victoria the overhead bridge would have very heavy grades and the overhead bridge would appear like the pitched roof of a house.

By depressing the railway from the north end of the bridge where the grade is a level one, much better means of crossing the railway line would be obtained. The overhead bridge would take the place of the proposed subway on Jasper and the other overhead bridges would be nearly on a level.

In this the question that will be discussed with the C. P. R. engineer is the future.

MULTIMILLIONAIRE JOS. FELS ADDRESSES CANADIAN CLUB

The Well-Known Manufacturer and Philanthropist Tells of the Ideas Which He Holds Dear to His Heart—Tells of the Lloyd-George Budget—Is a Single Word Believer in the Theories of Henry George—Converted by Kier Harlow.

The Canadian Club this afternoon was advised at its luncheon in the King Edward Hotel by Joseph Fels, the millionaire owner of the Canadian Pacific railway, who is now making a tour of the west. Fels is a fairly large attendance. Mr. Fels is the single taxer, an advocate of the single tax, and a devotee of the ideas of Henry George. He has a large number of millions of money to many objects, his purpose being to do good to the benefit of mankind.

He spoke on taxation.

Mr. Fels spoke at length on the subject of taxation. He had just addressed the United Farmers of Alberta at Calgary. That was the second time he had the privilege of addressing a gathering of farmers. The first occasion was in last June, when he had spoken in an open hall in Edmonton to a gathering of some six hundred United Farmers of Alberta.

Canada, the farmers lead in the matter of education on the land question.

He knows no taxation.

Mr. Fels spoke at length on the subject of taxation. He had just addressed the United Farmers of Alberta at Calgary. That was the second time he had the privilege of addressing a gathering of farmers. The first occasion was in last June, when he had spoken in an open hall in Edmonton to a gathering of some six hundred United Farmers of Alberta.

EDMONTON OLD-TIMER DIES IN WINNIPEG

Winnipeg, Jan. 19.—Andrew Murray, born at Moose Lake, Minn., ninety-one years ago, and the son of one of the settlers, died this morning. For many years he was the independent freight house between Fort Garry, York Factory and other northern points. About 1878 he entered the general trading business at Edmonton, retiring some years ago.

FREEER ACCESS FOR FOOD STUFFS

Indications Are That Reciprocity Will Open Markets For West in U.S.

Toronto, Jan. 20.—The Star-Washington correspondent writes: "We have just received from the United States a copy of the tariff schedule of the United States, which will be in effect on January 1st. It shows that the tariff on foodstuffs will be reduced to 10 per cent. on all foodstuffs, and to 5 per cent. on all foodstuffs of the United States. This is a great step towards free trade between the United States and Canada."

Should the treaty have this effect the demands on Manitoba would be greatly increased. The farmers of the province have been at least partially satisfied. Year by year the consumption of the United States has increased. The demand for foodstuffs has increased. The demand for foodstuffs has increased. The demand for foodstuffs has increased.

There should be nothing dangerous in the matter. The United States has been willing to pay for them, and provided also that the Canadian manufacturer is able to carry on his business.

The death took place in Strathcona yesterday of Mrs. K. DeRin. An Irish child and a devoted husband.

BRITISH STEAMER ABANDONED AT SEA

AN INJUNCTION GRANTED TO CITY

Burns Slaughter House Grievance in North of City Must End on Tuesday.

The Burns slaughter house, near Norwood, must close on Tuesday next. This action is the result of the local redress of justice.

In other news, the morning Chief Justice Harvey, the city solicitor, J. C. P. Brown, applied for an injunction to stop the city from the buildings for their present purpose.

The application was opposed by H. McKinnon, of McKinnon & Co., who urged that some further action be taken.

An order for an injunction was granted, however, on the condition that it should not be taken out until next Tuesday. It will be served during the day and night, and the slaughter house will be a nuisance no longer.

"DEATH'S CALL AND ITS CURE" BY J. H. COLE

A Large Audience Heard "Death's Call and Its Cure" by J. H. Cole, at the Walker Theatre, Winnipeg, last night.

Bred and Brotherton's hall was crowded to the doors last night when the lecture of Death's Call and Its Cure, by J. H. Cole, was given.

The speaker, a well-known author, addressed the audience in a most interesting and instructive manner.

FOREST FIRES HAVE COST \$25,000,000

This is the Statement of United States Forestry Commissioner Before the Forestry Convention at Quebec—Mountainous Reserves For Forest Lands in the Plan of One Expert.

Quebec, Jan. 20.—Hon. J. Fisher delivered the first address in the Dominion forestry convention yesterday. He congratulated the idea of the province on the work of fire prevention, particularly along the line of the railways.

J. G. Peters, United States forestry commissioner, reviewed the course of the convention. He said \$25,000,000 in the United States, destroying a forest area of 1,000,000 acres, thirty-four per cent. of the forest land.

Spring-1911

The following report of the school management committee, recommending increases in the salaries of various members of the teaching staff, was also adopted by the board:—

"That all grade teachers, vice-principals and principals of temporary schools in the service of the board during 1910 and working under the present schedule be given standing of an additional year over those

Boston, Jan. 19.—Notwithstanding repeated assertions by Governor Foss in his campaign against the return of Senator Lodge to the United States that he would never approve the credentials of Mr. Lodge, the governor formally affixed his signature and the state seal tonight to the certificate of election. The Governor's private secretary said that the Governor had no objections to make.

Edmonton, in preparation for a spring meeting in May. There is present on the railway yards a carload of horses waiting to be switched to Exhibition grounds, where they will at once be stabled and put on training on the tracks. Another consignment of some eight horses will follow later, for which accommodation will probably be found in the stable complex at Edmonton.

January 28th

Is the very latest date on which we can receive designs for our special number, entitled "GREATER EDMONTON."

We have already received several efforts, some of which are really brilliant—aspirants from Calgary, Vermilion, Vegreville and Strathcona having forwarded designs. There are several efforts still to be seen in we know, and it is in connection with these more especially that we wish to deal. The time is getting short and delays are dangerous, so we would politely urge you to make as much speed as possible and thus assist the judges in their final work.

On no account forget the fact of production the "GREATER EDMONTON" number is to be... Its special feature embracing Edmonton's brilliant present and more brilliant future, will be carefully depicted. The many points that have contributed to the immense and steady growth of the city will be clearly portrayed. It's huge size, including the Provinces of Alberta and Saskatchewan, should be of additional interest to designers for ideas in finishing up their sketches as it will enable them to fully understand where the copies will be sent, whilst a further 5,000 copies are to be forwarded to main points in England and America.

NE MOMENT MORE

We do not believe there is a single English-speaking person in Edmonton and district who is not interested in this great number which the Bulletin is preparing now with so much care and thought. Therefore our request to you is that you 'phone us, write or call in and let us know how many copies you wish reserved. "GREATER EDMONTON" will be a publication—issued by the leading and largest newspaper in Edmonton—printed in two colors upon coated stock—profusely illustrated with local

views—with an historical and accurate detailed synopsis of the city's leading individualities that have assisted in making it what it is—that will excel anything ever before attempted in this western country.

In conclusion, will you therefore allow us to urge upon you the necessity of placing your order for extra copies as early as possible so that disappointment in delivery will not be yours.
